

SACRAMENTO NWRC HUNTING ACCESSIBILITY

Special accommodations exist on the refuges that help provide hunting opportunities for hunters with disabilities. Photos from September 2016.

Sacramento National Wildlife Refuge: 2 spaced blinds & 1 assigned pond

Blind 5D

Blind 23D interior of blind

Blind 23D graveled walkway

5D and 23D have concrete pads with wire fencing that are camouflaged with fast grass and tule bundles. Each blind location has two 2-man blinds with two chairs in each.

27D is an assigned pond with a car top boat launch (no trailers) to allow hunters the opportunity to hunt outside of the blind. The blind has bike track flooring with wire fencing camouflaged with fast grass, tule bundles, and willow branches. There is one 2-man blind at 27D.

Access to all three blind sites is hard-packed gravel. The sites may be accessed by motor vehicle or ATV (see the disabled hunting page for specific information on using an ATV). 5D has vehicle access right to the blind location. 23D has a 90 yard walk and 27D has a 140 yard walk from the loading and unloading area to the blind site.

Boat Accessibility: Two boat launches are available for disabled hunters. Boats can be used at AP 27D (cartop only) and free roam T38:1 from parking lot C. Electric motors or manual boats are required. No gas motors are permitted.

Delevan National Wildlife Refuge: 3 spaced blinds (13D, 29D, and 30D)

Blind 13D

13D and 29D have one 2-man blind. 30D has two 2-man blinds. All blinds have bike track flooring with wire fencing camouflaged with fast grass and tule bundles. Access to all three sites is packed gravel. Sites may be accessed by motor vehicle or ATV (see the disabled hunting page for specific information on using an ATV). From the loading and unloading area to the blind site, 13D is 100 yards, 29D is 37 yards, and 30D is 80 yards. Each blind includes two folding chairs.

Blind 29D walkway to blind

View from 13D

Boat Accessibility: Two boat launches are available for disabled hunters in free roam. Access is from parking lot C and can access T34.3 and T33. Electric motors or manual boats are required. No gas motors are permitted.

Colusa National Wildlife Refuge: 2 assigned ponds with boat access (P2A & P2B)

Pool 2B Blind

P2A is one 2-man blind constructed on an island. It has a hard-packed gravel floor and wire fencing camouflaged with fast grass and tule bundles. P2A does not have an above ground gravel access route and therefore is not wheel chair accessible except if the user brings a boat. From the parking lot there is a 364 yard (0.2 mile) walk to the blind (201 yards on a gravel road and 163 yard walk through water to the blind island). The entire walk in water has packed gravel which is marked between the guide stakes with reflective tape. There are two folding chairs in the blind.

P2B has one 2-man blind on a hard-packed gravel floor with wire fencing camouflaged with fast grass and tule bundles. It has a hard-packed gravel 102 yard access route from the loading area.

Interior of Pool 2B Blind

Boat Accessibility: Disabled hunters may access P2A and P2B. The boat launch is accessible from the disabled parking lot. Electric motors or manual boats are required. No gas motors are permitted.

SACRAMENTO NWRC HUNTING ACCESSIBILITY

Special accommodations exist on the refuges that help provide hunting opportunities for hunters with disabilities. Photos from summer of 2014.

Sutter National Wildlife Refuge: 1 assigned ponds with boat access (6D)

Blind 6D

6D has one 2-man blind with bike track flooring with wire fencing camouflaged with fast grass, tulle bundles, and willow branches. Access to the pond is by boat or a hard packed gravel walkway. Hard-packed gravel access route is 150 yards from the loading area. There are two folding chairs in the blind. Since it is an assigned pond, hunters have the option to hunt anywhere within the assigned pond boundary.

Boat Accessibility: Disabled hunters may access the unit by using a boat with an electric motor or manual. To access assigned pond 6D by boat, hunters may use the boat launch in the disabled hunter parking lot. No gas motors are permitted.
